

FORMFOX FLEX™ URINE POCT

INSTRUMENT INTERPRETED RAPID URINE SCREENING DEVICE

The FormFox Flex Urine POCT device is a rapid, instrument interpreted screening test for up to 14 drugs with adulterants in minutes.

- Self-contained design yields fast, accurate screening results in minutes
- Does not require any tipping, turning, dipping, or pipetting
- Minimizes collector exposure to urine
- Flexible panel configuration – single drug, all 14, or any combination
- Single SKU simplifies and reduces inventory management and costs
- Offers Fentanyl screening at no additional charge
- Available through the Marketplace
- Integrated with FormFox Workforce/API for ordering, tracking, and results reporting
- Instrument interpreted results eliminates human error
- Collection guided by an intuitive custom FormFox workflow
- iPad provided by CRL (must participate in Marketplace)
- Presumptive positive/send to lab samples confirmed at no additional cost
- Integrated MRO review included at no additional cost
- Real-time reporting of negative results
