Workforce Onboarding Release
RLSE0011438
Customer Release Notes
Scheduled Release Date: June 26, 2025

Results:

STRY0113953: Workforce Results Exceptions change for non-DOT non-negative lab results

Order Tab/Orderable Services

STRY0115554: Add 4 new Reasons for Test (Clinical, Diagnostic, Site Access, Surveillance), to Reason for Test dropdown menu in WF

Site Selection

STRY0119005: Add additional verbiage to Out of Network clinic description in Workforce site search and site selection. The updated description will display as "Out of Network-Marketplace Location"

STRY0113671: Google Maps zoom level is more zoomed out for site selection for better clarity

Security/Technical/API Only

STRY0114397: Expiration Date for Token Generator Link is Configurable by client (API)

One Source Related:

DFCT0014094: OneSource- Order Date from XML is successfully updated to "last" service in a multi-service order

DFCT0014102: OneSource- FFAPI order, edit on Workforce portal for Clinic, expiration date change is corrected

DFCT0014104: OneSource - Auth form issue

DFCT0014114: OneSource - Existing on Implementation can cause import to fail (null reference exception)

STRY0120054: OneSource/Embedded Site Search Requirements Change - Drop the requirement that the SendingFacility for ESS Customers must be 'EMBEDDED' so that orders can be submitted from WF for EMBEDDED Workforce implementations

STRY0118488: Store CompanyName on Results Grid in Workforce (for CheckR and other future One Source customers)
