

## **Workforce RLSE0011525**

**Release Date: Late December 2025**

### **STRY0122215: Images Display Correctly in Workforce**

We resolved an issue that caused some images to be incorrectly displayed. Image reporting is now consistent and reliable across all workflows.

### **STRY0127686: MRO Letters populate correctly for Flex Results**

Some clients experienced missing MRO letters within the Flex Results grid. This update ensures all applicable MRO letters appear correctly, improving visibility and reducing follow-up steps for case review.

### **STRY0127683: Site Admin User Management Restored**

A system defect prevented Site Administrators from modifying user details. This has been fully corrected, and admins can once again update user profiles without interruption.
